IIDA ANNOUNCES THE WINNERS OF THE 5th ANNUAL GLOBAL EXCELLENCE AWARDS

Chicago, IL – The International Interior Design Association (IIDA), in collaboration with BMW Group DesignworksUSA, is pleased to announce the winners of the 2014 IIDA Global Excellence Awards. This annual worldwide design competition honors and celebrates outstanding originality and excellence in the creation of international Interior Design/Interior Architecture projects. Projects were submitted from 39 countries with 16 winners in 10 categories.

“The international nature of the competition is exceptionally inspiring as we think about the growing impact Interior Design has made on the community at large. One of the most rewarding aspects of the Global Excellence Awards is seeing the variety of approaches to a design concept,” said IIDA Executive Vice President and CEO Cheryl S. Durst, Hon. FIIDA, LEED AP.

Projects for the competition were reviewed by Mari Balestrazzi (Founder and Principal, MARCO). Giorgio Borruso (Owner, Giorgio Borruso Design), Johannes Lampela (Creative Director, BMW Group DesignworksUSA), and William Paley (Associate, Tony Chi & Associates).

“This year's submissions are testimony to the value and impact of good design, with high quality projects of various scale and budget from remote locations to major metropolises alike,” said Lampela.

The judges for this year's Global Excellence Awards all agreed. “This year we saw a large participation from varied geographical areas, which made the process of evaluating design across the multitude of projects - all so different, in terms of scope of work, budget, and achievement of goals - particularly engaging,” they said.

The 2014 Global Excellence Awards winners are as follows:
